

Full Stakeholder OCP Training Webinar Question & Answer

June 25th 2014 (Early Session)

Q: Is there a systematic way to control the invalid certificate, just email or invalid certificate can't approve FSC claim during the suspension?

A: The OCP will not block the trade, so claims can still be approved (accepted) for suspended suppliers. By doing this both trading parties will receive warnings and this claim will be marked as a "Flagged Claim" under "view claims" tab.

Note: "Flagged claims" are accepted claims that are not in the suppliers' scope.

Q: When it will be mandatory for certificate holders to register at OCP?

A: Currently the usage of OCP is voluntary and no decision has been made on whether or when it will be made mandatory for certificate holders.

Please find the latest OCP Process Road map [here](#).
